

Appendix C - Terms Indicating In-Situ Behavior

General Reportable Terms Indicating In-Situ Behavior

General Reportable Terms Indicating In-situ Behavior
Behavior code /2
Bowen's disease (excluding skin)
Confined to epithelium (does not extend beyond base membrane)
Ductal carcinoma in-situ, (DCIS) (any site)
Dysplasia, squamous, high grade (excluding cervix)
Glandular intraepithelial neoplasia, high grade
Intracystic, Intraepidermal (NOS), Intrasquamous, In-situ
Intraductal papillary neoplasm with high grade intraepithelial neoplasia
Intraepithelial carcinoma, (NOS)
Intraepithelial neoplasia, high grade, grade II, grade III, not otherwise specified (NOS) (excluding Glandular intraepithelial neoplasia, grade II)
Involvement up to, but not including basement membrane
Lobular carcinoma in-situ (LCIS)
Mesothelioma in-situ
No stromal invasion
Non-infiltrating; Non-invasive
Squamous intraepithelial neoplasia, grade II (SIN II), grade III (SIN III) (excluding cervix and skin sites)
Papillary, non-infiltrating or intraductal
Pre-invasive

Site-Specific Terms Indicating In-Situ Behavior

Site	Terms Indicating In-situ Behavior
Anus	Anal intraepithelial neoplasia, grade II (AIN II), grade III (AIN III) High grade squamous intraepithelial lesion (HGSIL or HSIL)
Appendix	Low-grade appendiceal mucinous neoplasm (LAMN) High grade appendiceal mucinous neoplasm (HAMN)
Breast	Ductal intraepithelial neoplasia, grade III (DIN III) Lobular intraepithelial neoplasia, grade II (LIN II), grade III (LIN III) Lobular neoplasia, grade II (LN II), grade III (LN III) Lobular, non-infiltrating
Breast Colon Rectum	Stage 0 (excluding Paget's disease) confined to lamina propria

Colon Rectum	High grade dysplasia
Conjunctiva	Intraepithelial neoplasia with severe dysplasia, or grade III; Squamous intraepithelial neoplasia, grade II
Endometrium	Endometrioid intraepithelial neoplasia (atypical hyperplasia, EIN) Intraepithelial neoplasm of endometrium Atypical hyperplasia of endometrium
Esophagus	Esophageal squamous intraepithelial neoplasia (dysplasia), high grade Esophageal glandular dysplasia (intraepithelial neoplasia), high grade Esophageal intraepithelial neoplasia (dysplasia), high grade, or grade III
Esophagus Stomach Small Intestine	High grade dysplasia
Gallbladder	Biliary intraepithelial neoplasia, high grade High grade biliary intraepithelial neoplasia, grade III (BiIN III)
Larynx	Laryngeal intraepithelial neoplasia, grade II (LIN II), grade III (LIN III) High grade squamous dysplasia
Pancreas	Pancreatic intraepithelial neoplasia, grade III (PanIN III) Non-invasive mucinous cystic neoplasm (MCN) of pancreas with high grade dysplasia
Penis	Penile intraepithelial neoplasia, grade II (PeIN II), grade III or high grade dysplasia (PeIN III) Differentiated penile intraepithelial neoplasia (PeIN) Queyrat's erythroplasia
Skin	Clark's level I (melanoma; limited to epithelium) Hutchinson's melanotic freckle (NOS) Lentigo maligna Precancerous melanosis
Stomach Small Intestine	Intestinal-type adenoma, high grade Adenomatous polyp, high grade dysplasia Serrated dysplasia, high grade Squamous dysplasia, high grade
Vagina	Vaginal intraepithelial neoplasia, grade II (VAIN II), grade III (VAIN III) High grade squamous intraepithelial lesion (HGSIL or HSIL)
Vulva	Vulvar intraepithelial neoplasia, grade II (VIN II), grade III (VIN III) High grade squamous intraepithelial lesion (HGSIL or HSIL) High grade vulvar intraepithelial neoplasia Differentiated vulvar intraepithelial neoplasia (VIN) or Differentiated exophytic vulvar intraepithelial lesion (DEVIL)
