Data Alert - Vendor
2016-004

Request for Vendor Development test files

The CCR will have an open-ended test window from 03.28.2016 for the purpose of testing Vendor files of all record types specified in Volume II appendices A, B, C, and D.

Submitting files are optional, but mutually beneficial to both the CCR and Vendors, if errors are discovered on either end.

To submit Vendor Development test files, please email them to cremen@ccr.ca.gov as password-protected zip-files (if the information is of actual patient data and not made up). Normally, the password is emailed in a separate email, though you may also call (916)731-2523.
